

VALK STASY PORTFOLIO

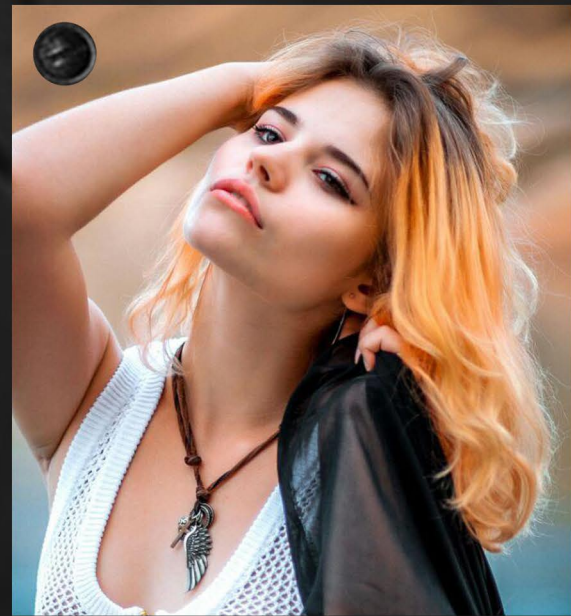

MAIN INFORMATION

My name is Anastasiya, surname is Batova.
Better known as ValkStasy.
I am from Central Asia, Tashkent.
I have full completed secondary education specialised on industrial design,
I finished two private schools of fine arts and sculpture
and 2 special courses of photography and tattooing.
Had a 6-month practice in architectural company.
At the moment I have my own brand named Valk Aerography.
Custom Service where I lead projects from sketch creations
to final paintings and polishings.
Since childhood I was passionate about cars,
their designs, mechanics
and always tried to change something in them.
Often i notice the lack of taste and integrity of forms.
I am creative supporter of exclusivity and originality.
And I would like to work in your company ,
hoping to compliment your excellent works
with my extraordinary ideas and developments.

I work both in an applied way and on modeling applications such as :
Adobe Photoshop, 3ds MAX, AutoCAD, Zbrush, CorelDRAW,
Lightroom, Premier PRO, Davinchi Resolve and other.

The main idea of works presented here
is modernization of ready object,
compensations defects with paintings.
and unicalization all projects in overall .

Thanks for viewing. Sincerely, Anastasiya

VALK STASY
